ADOPTED DEC. 1, 1890.

The St. Louis Sash and Door Works,

MANUFACTURERS OF

Sash, Doors and Blinds

MOULDINGS, ETC.

Stair Work, Interior Finish,

FRAMES, BRACKETS, ETC.

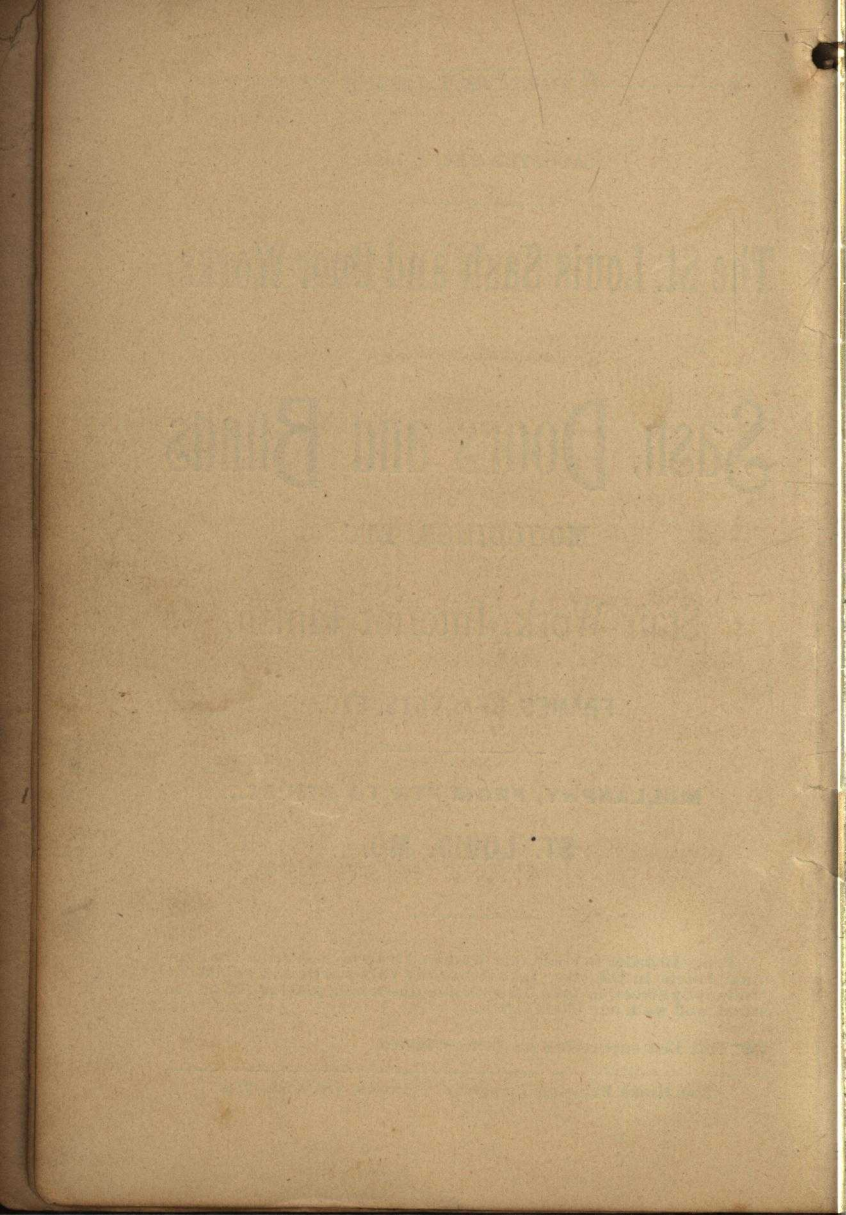

MULLANPHY, FROM 7TH TO 8TH ST.,

ST. LOUIS, MO.

P. S.—In order to reach our office and warehouses from the principal hotels in the city, take Broadway cars north and get off on Mullanphy street, or take Cass avenue line north, getting off on 8th street, and walk one block north.

❁ This List supersedes all former issues.

The Hicks Printing Company, Printers, Oshkosh, Wis.

To the Trade.

We take pleasure in presenting to you herewith our new Price Current.

Having increased our facilities both in manufacturing and storing, we feel safe in saying that we are well prepared to keep up our already well established reputation for prompt shipping and turning out the best of goods.

We shall be pleased to furnish any information relating to our goods you may require, and be very glad to estimate for you on odd work which we can turn out with all promptness and dispatch.

Thanking our customers for their liberal patronage in the past and trusting to merit same in the future, we remain,

Yours respectfully,

ST. LOUIS SASH & DOOR WORKS.

**PLEASE OBSERVE THE FOLLOWING DIRECTIONS
IN GIVING YOUR ORDERS.**

DOORS—

Give size, quality (1st or 2d), thickness and number of panels.

MOULDED DOORS—

State whether to be moulded one or two sides, and raised or flush moulding.

SASH—

Give size of glass, number of lights in window, number of lights in width, thickness, plain or check rail, and whether glazed or unglazed.

SEGMENT HEAD SASH—

If frames are made, give radius to inside edge or face casing of window frame, or rise of casing.

ELLIPTIC HEAD SASH—

If frames are made, send a pattern of head casing.

Elliptic, Segment and Circle Sash—

Be sure to state whether the windows are finished square inside or the same shape inside as outside.

OUTSIDE BLINDS—

You are requested to describe the window for which they are intended, following directions given in ordering sash, and if frames are made give exact size of opening.

FRAMES—

Give width of jambs for frame buildings and thickness of wall for brick buildings. For door frames state if out or inside frame. For window frames state if plain or check rail, with or without pulleys.

INSIDE BLINDS—

In all cases the order should give the exact size of opening; size and number of lights in window; distance from top of window to center of meeting rail of sash, or to where the blinds are to be cut; number of folds, and whether to be all slats or outside folds paneled; if blinds fold in pockets give width of outside fold.

Do not take it for granted that we know what you want unless you are explicit.

It is economy to conform to regular sizes and styles as much as possible.

When ordering style of work different from what is embraced in this list it is often necessary to give sections, sometimes elevations.

Use terms when practicable as given in this book.

In giving sizes of Sash, Doors or Blinds name width first. This is important.

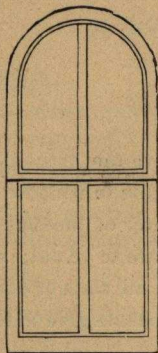

A Window indicates two pieces.

A Sash indicates one piece.

A Blind indicates one piece.

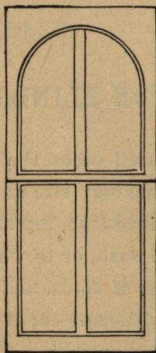

A pair of Blinds indicates two pieces.

A set of Sash or Blinds indicates more than two pieces and order should be accompanied with elevation.

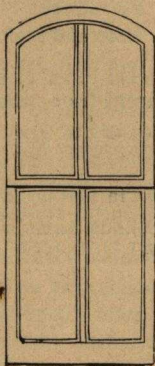

1

For Window Frames, Circle
inside and outside.

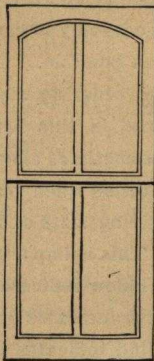

2

Window Frames, Circle out-
side, Square inside.

3

Window Frames, Segment
inside and outside.

4

Window Frames, Segment
outside, Square inside.

PLEASE BE EXPLICIT IN GIVING YOUR ORDERS.

Always give the *radius* of the *segment*, otherwise we shall make our regular radius, which is the width of the window.

Windows made in the above forms can be filled with any number of lights required.

Sizes not given above, extra price.

All Check Windows plowed and bored.

For sash prepared for oil finish add 30 cents to the list.

GLAZED WINDOWS.

We make the glazing of windows a specialty, and our customers will find by examining the prices, that they can save money and trouble by ordering all windows primed and glazed.

The glazed sash can be shipped more safely than the glass in boxes, as the extra allowance which must always be made for breakage is avoided. Each light is then distinct from every other, and not liable to be broken by the irregularity of packing, or the irregular thickness of the lights, which is always the case with glass packed in boxes. In packing glazed sash the lights are covered with half-inch lumber, which completely protects them from injury in handling; the glass and sash are then in one package and can be shipped at a less rate per 100 pounds than unglazed sash.

We put eight plain rail and six check rail windows in a bundle

6	0 × 9 0	"	27.50	32.30

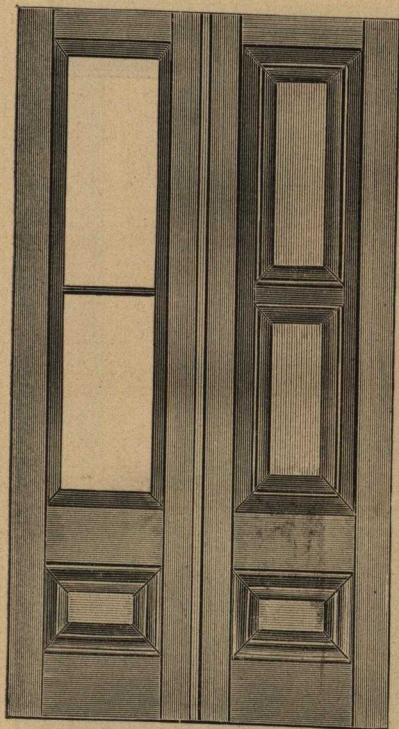

The above sizes of Store Doors we keep on hand, and are prepared to make any size single or double thick, on short notice; also Store Sash, Panels, etc.

All heavy raised mouldings on one side

Doors made Double Thick, add 75 per cent. to Open 1½ List.

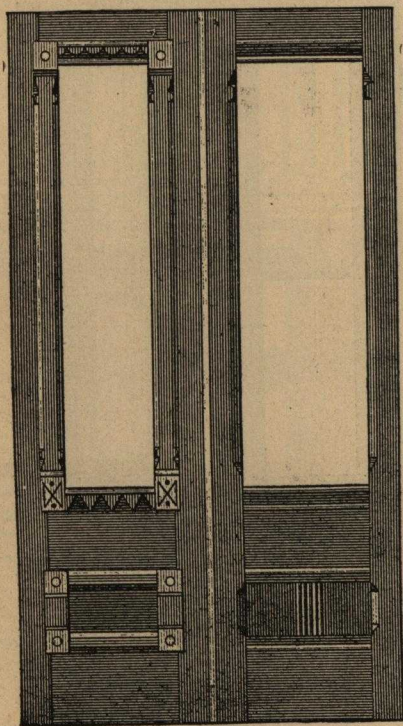

All Store Doors are made without Shutters, unless otherwise ordered. We also make Store Doors and Store Sash, moulded both sides on the glass, either square, circle-top, segment, or circle-corners, to order. In ordering, always state whether glazed or unglazed, and whether single or double strength glass is wanted, and how many lights in each door.

INSIDE BLINDS.

500

1½ Thick.

501

O G Panel or Rolling Slats, measuring height of window, ordinary width per foot:

Two-fold.....\$.65	Four-fold.....\$1.00
Three-fold......80	Six-fold......1.40

The above prices are for Pine. If hard wood, such as Cherry, Ash, Maple or Black Walnut, we charge extra price. We make Inside Blinds that are not excelled, either in workmanship or style. If for oil finish, extra price.

DIRECTIONS FOR ORDERING.

First—In all cases give the exact outside measure of Blinds wanted.

Second—Give the number of folds.

Third—State if Blinds are to be all slats, or ½ panels and ½ slats.

Fourth—State distance from top of window to center of meeting rail of sash, or where Blinds are to be cut.

Fifth—Give thickness of Blinds. They are made 1½ inch thick unless otherwise ordered.

Sixth—If Blinds fold in pockets, give the size of pockets.

Seventh—State if Blinds are to be painted or finished in oil.

Eighth—If for oil finish, extra price.

Stairs, Stair Railing, Etc.

Pine and Whitewood Balcony Balusters and Railing of every description made to order.

We have a large stock of Newel Posts, Balusters, Stair Railing, Stair Brackets, etc., always on hand, which we will take pleasure in showing to our customers.

Our patterns or styles of Railing, Balusters and Posts, are the latest and most improved, such as we are furnishing in this city and throughout the South and West. The prices given for Railing are for Straight Rail.

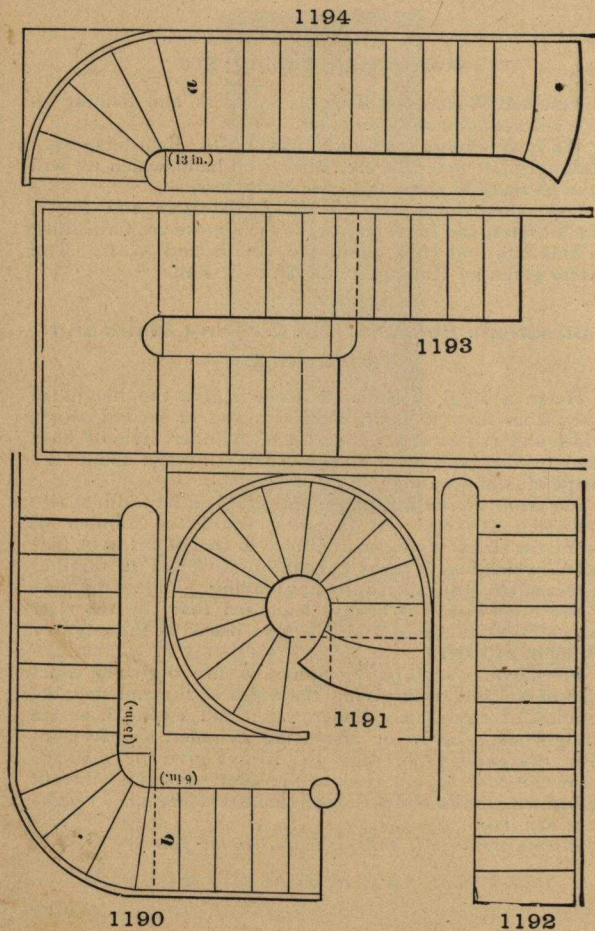

Directions Necessary for Ordering Stairs and Stair Railing.

When a flight of Stairs is wanted, give the height of story from floor to floor, width of joist in second story, width and run of stairs, the size of cylinder, style of base used in the hall, with rough sketch showing about the shape of stairs wanted.

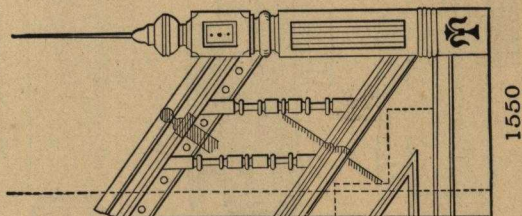

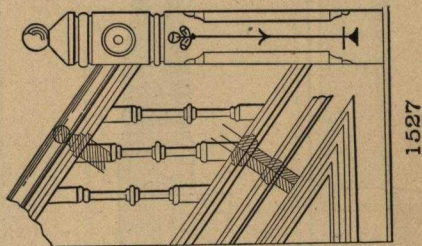

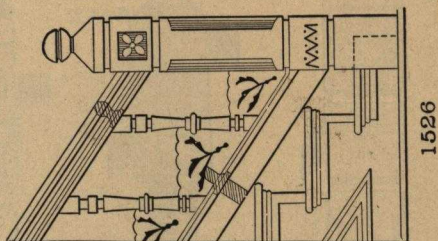

For Stair Railing, Straight Flight, give the width of rise and step as sawed out on string board, the number of risers, the size of cylinder from face to face of string or face board, which way it turns at head of stairs, and the number of feet of straight rail required at landing. Unless the plan shows otherwise, it is always supposed that the top riser for a straight flight of stairs is to be placed at the edge or spring of cylinder.

For Circular or Winding Stairs, be sure to give an exact plan of stairs as built, giving the width of rise and step, the location of risers in cylinder, etc.; and when there are straight steps below or above the cylinder, as per plans Nos. 1194 and 1190, page 56, always give the distance from the first square riser to the edge or spring line of cylinder on the face of string or face board (see *a*, *b*, *c*. plans 1194 and 1190).

Always write your address in full on the plans.
